THE CHESTER GUINNESS INDEX

Admin Standard Operating Procedure

First Login · Profile · Add Pub · Add Review

Version 1.0 · Confidential — Admin Use Only

This document covers the four core admin tasks you need to get started:

01 How to log in to the admin area

02 How to set up and edit your reviewer profile

03 How to add a new pub

04 How to add a Guinness review

1 Logging In

`/login`

1. Open your browser and navigate to the site URL, then go to `/login`.
2. Enter your **Email address** in the first field.
3. Enter your **Password** in the second field.
4. Click **Sign in**. The button will show *Signing in…* while authenticating.
5. On success you are redirected automatically to the **Admin Dashboard** at `/admin`.
6. If login fails, a red error message appears — check your credentials and try again.

> **TIP**
> Your browser can save the password. Once logged in your session persists — you will not need to log in again unless you sign out or the session expires.

→ Admin Navigation Overview

Once logged in, a navigation menu is always visible — sidebar on desktop, bottom bar on mobile. It contains the following sections:

Dashboard `/admin`	**Pubs** `/admin/pubs`	**Reviews** `/admin/reviews`
Social `/admin/social`	**Profile** `/admin/profile`	**View Site** `/ (new tab)`

> **Sign Out** is available at the bottom of the navigation menu. Clicking it logs you out immediately and redirects to `/login`.

2 Setting Up Your Reviewer Profile

`/admin/profile`

Your profile sets the name and avatar that appears alongside your public reviews. Do this once on first login.

1. Click **Profile** in the navigation menu.
2. To add a photo, click the **Upload photo** button below the avatar circle and select an image from your device (JPG or PNG).
3. Enter your **Display name** — this is the name shown publicly next to your reviews.
4. Set your **Accent colour** — this is the colour used for your avatar border and review cards on the public site. Either use the colour picker or type a hex code (e.g. `#C9A84C`).
5. Your **Email** is shown for reference only — it cannot be changed from this page.
6. Click **Save profile**. A green confirmation appears when saved successfully.

Field	Required	Notes
Avatar photo	Optional	JPG or PNG. Displayed as a small circle on your public reviews.
Display name	Optional	Your name as it appears on public reviews.
Accent colour	Optional	Hex colour code for your avatar border and review card. Default gold is `#C9A84C`.
Email	—	Read-only. Displayed for reference only.

> **TIP**
>
> You can return to `/admin/profile` at any time to update your photo, name, or colour. Changes take effect immediately on the public site.

3 Adding a New Pub

`/admin/pubs/new`

Every pub must be registered before a review can be added. The form supports Google autofill to speed up data entry.

> **FASTEST METHOD — GOOGLE AUTOFILL**
>
> Use the **Find via Google** panel at the top of the form. Type the pub name and press Search (or Enter). Select the correct result from the dropdown — the form will auto-fill name, address, postcode, area, latitude and longitude instantly.

1. Go to **Pubs** in the nav, then click **Add pub** (or navigate directly to `/admin/pubs/new`).
2. **Optional — Google autofill:** In the *Find via Google* panel, type the pub name and press **Search** or hit Enter. Click the correct result in the dropdown to auto-fill the form.
3. **Optional — Maps link:** Alternatively, paste a Google Maps URL into the second input and press **Parse** to extract coordinates and details.
4. Review and complete all required fields (marked below). Correct any autofilled values if needed.
5. Optionally upload a **cover photo** or use the Google photo if one was offered after autofill.
6. Set the **Active** toggle. Active = visible on the public map. Leave it off if the pub is not ready to publish yet.
7. Click **Save Pub** to save and return to the pubs list, or **Save & Add Another** to save and start a new pub immediately.

Pub Form Fields

Field	Required	Notes
Pub Name	Required	The full pub name as it will appear publicly. e.g. *The Old Harkers Arms*.
URL Slug	Required	Auto-generated from the pub name (lowercase, hyphenated). Determines the public URL: `/pub/the-old-harkers-arms`. Only edit if you need a custom URL. Must be unique — an error will show if a duplicate exists.
Address	Required	Full street address. Filled automatically by Google autofill.
Postcode	Optional	Any postcode or postal code format — UK, Irish, international. Filled automatically by Google autofill.
Area	Required	Free text. For Chester pubs: the neighbourhood (e.g. *Hoole*, *City Centre*). For pubs abroad: the city or district (e.g. *Dublin*, *Temple Bar*). Google autofill will suggest a value — edit it freely.
Latitude	Required	Decimal latitude. Filled automatically by Google autofill. Accepts any valid worldwide coordinate.
Longitude	Required	Decimal longitude. Filled automatically by Google autofill. Accepts any valid worldwide coordinate.
Guinness Price (£)	Optional	Price of a pint at time of visit. Decimal accepted (e.g. *4.90*).
Description	Optional	Short description of the pub shown on its public page.
Cover Photo	Optional	JPG or PNG hero image. Can use the Google photo offered after autofill, or upload your own. Click × to remove.
Active	Toggle	On = pub is visible on the public map and list. Off = hidden from public. Can be changed at any time.

Editing a pub later: Go to **Pubs** in the nav, find the pub in the list, and tap it to open the edit form. All fields can be updated at any time.

ADDING A PUB WHILE TRAVELLING

The form works anywhere in the world. Search the pub name directly — Google will find it regardless of location. Area, postcode, and coordinates all support international formats with no restrictions.

4 Adding a Guinness Review

`/admin/reviews/new`

Reviews score a Guinness visit across five categories. Each score is 0–10 in 0.1 steps. The live total out of 50 updates as you adjust scores.

> **Before you start:** The pub you are reviewing must already exist. If not, add it first via `/admin/pubs/new` (see Section 3).

1. Go to **Reviews** in the nav, then click **Add review**.
2. Select the **Pub** from the dropdown. All registered pubs appear here.
3. Set each of the five scores using the **+** / **−** buttons or the slider. The live score at the top updates in real time.
4. Fill in the optional fields: price, date visited, notes, and verdict.
5. Optionally upload a **review photo** taken on the visit.
6. Check the **Official review** toggle — leave it on unless this is an informal or test entry. Official reviews update the pub's public score and generate a social media draft.
7. Check the **Published** toggle — leave it on to make the review visible on the pub's public page immediately.
8. Click **Save Review** to save and return to the reviews list, or **Save & Add Another** to log another visit immediately (the pub will stay pre-selected).

The Five Scoring Categories — each scored 0.0 to 10.0

1 · Pub Look & Cleanliness

Overall appearance, décor, cleanliness of the bar and seating areas.

2 · Staff

Friendliness, attentiveness, and knowledge of the pour.

3 · Glass / Pour

Quality of the pour technique, head, and glass condition.

4 · Taste / Quality

The actual taste — temperature, body, freshness, and quality.

5 · Price

Value for money relative to the quality of the pour and the venue. A 10 means exceptional value; a low score means overpriced.

Scores are adjusted using the **+** and **−** buttons (increments of 0.1) or by dragging the slider. Default is **5.0** for each category. The total out of 50 determines the pub's rating tier.

Rating Tiers

Tier	Score Range
Legendary	46 – 50
Elite	41 – 45
Strong	36 – 40
Decent	31 – 35
Weak	21 – 30
Avoid	0 – 20

Additional Review Fields

Field	Required	Notes
Pub	Required	Select the pub from the dropdown. Must be added first if not listed.
Price (£)	Optional	The actual pint price paid on this visit. Used to track price changes over time.
Date visited	Optional	The date of the visit. Useful for historical context.
Notes	Optional	Longer description of the experience. Shown on the pub page.
Verdict	Optional	One-line summary verdict. Shown prominently on the pub page.
Review Photo	Optional	Photo taken during the visit. Shown in the review on the pub page.
Official review	Toggle	**On by default.** Official reviews update the pub's public score and trigger a social post draft. Turn off for informal or test entries.
Published	Toggle	**On by default.** Published reviews are visible to the public on the pub's page. Turn off to save a draft without publishing.
